## **Steptoworld Compliance Inc.**

Your entrusted partner for exportation and global certification

---

Steptoworld Compliance Inc (STW) is a technology compliance consulting company that specializes in assisting manufacturers, importers, distributors, and retailers around the world to comply with current regulations in all countries around the world. All countries in the world have their own regulations: some are more mature than others, some cases require laboratory testing, while others require a simple statement to obtain product certification. We have created an extensive local agency network that allows us to provide the quickest and most cost-effective alternatives to comply with such diversified regulations.

### **Global compliance with local services**

STW has its own offices in North America, Europe and Asia, so you can work with local STW experts to help you get the certification and approvals needed to sell products in your target market, providing seamless support across time zones.

### **Overall solution**

Whether you are interested in one country or multiple markets globally, our STW will use an integrated and customized service approach to meet all your product compliance needs. STW global service package provides a complete compliance solution that covers the entire process and many regulations such as safety, electromagnetic compatibility (EMC), radio/wireless and energy efficiency.

### **Accelerate product launch**

By working with us, you can also take advantage of the optimized service path of a global certification program (such as the CB program) and work closely with other organizations around the world. This usually means that you can get certification or approval in many countries without having to retest or work with multiple organizations. Ultimately, this means faster time-to-market and lower costs.

## Certification Service Catalogue:

- Safety
- Hazloc
- Wireless
- Telecom
- Energy Efficiency
- EMC
- Medical Device
- Factory Inspection

## Certification Standard Scope:

### Safety:

IEC 60950	Standard for Information Technology Equipment
IEC 60065	Standard for Audio, Video and Similar Electronic Apparatus
IEC 62368	Replacement of above 2 standards
IEC 61010	Standard for Electrical Measurement Equipment
IEC 62471	Standard for Photobiological safety of lamps and lamp systems
IEC 60335	Standard for Household and similar electrical appliances
IEC 60598	Standard for Luminaires

**Hazloc:** IECEx 60079, 80079, ATEX, CEC/NEC, QAR, QAN

**EMC:** CISPR 14-1, 14-2, 22/24, 32/35, KN32/35

### Wireless:

FCC Part 15	247 & 249: Bluetooth, Zigbee, WLAN, RFID
FCC Part 15	Subgroup A (General) & B (Unintentional Radiators)
EN 301489	Electromagnetic Compatibility (EMC) standard for radio equipment and services
